

Minutes of the September 10 meeting of the CLC Education Outreach Group

The Education Outreach group met on September 10, 2008, 8am at Frasier Meadows Retirement Community. Attendees were Mike Befeler, Dianna Lee, Alan Castle and Mark Venzke and Deb Cameron.

There was a discussion on what we had learned from sources in the community about what is being done now that promotes positive images of aging (Goal 8.2) and where are the gaps in service that the group could begin to address. We then identified other groups and individuals that we might join with to get additional information or to collaborate with to move toward our goal. Those groups include:

Aging Services Foundation

Volunteer Connection

Senior Centers

Interagency Networking Group

Network North Networking Group

The question of available funds came up, since funds were available to the quadrants last year. Dianna will ask Laura about this.

It was decided to continue to gather information of on-going efforts, and to begin formulating an action plan. It was agreed that our “homework” for the next meeting is to define what our message should be. It was felt that this step will help define our next steps.

It was decided to meet once a month and to try to rotate locations to accommodate the members who take public transportation or drive a longer distance. .The next meeting was scheduled for October 8 at 8:30 am at Cinnamon Park Assisted Living in Longmont.

The meeting was adjourned at about 9:15am.
